The Government Finance Officers Association of the United States and Canada (GFOA) presented an Award for Distinguished Budget Presentation to the City of Bellevue, Washington for its biennial budget for the fiscal biennium beginning January 1, 2005.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communication device.

The award is valid for a period of two years only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Fund Descriptions and Reserve Policies

This section highlights each fund in the City of Bellevue, including a short description of how each fund handles reserves. A fund is simply an independent entity that is used to account for all the financial transactions related to it.

When new purposes or dedicated revenues for City operations arise, the City may create a new fund to account for those activities if such segregation is warranted. Every year Bellevue reviews existing funds and projects that need to be closed because the purpose for which they were created has been completed.

The pages in this section are organized alphabetically by fund name. The City's funds are divided into seven fund types, including the General Fund. They are defined as follows:

The General Fund is used to account for all transactions associated with customary City operations that are not required to be accounted for in another fund. The fund number starts with a "0".

Special Revenue Funds are used to account for the proceeds of revenue sources that are legally restricted to expenditures for specified purposes (other than major capital projects). The fund number begins with a "1".

Debt Service Funds are used to account for the accumulation of resources needed to pay general obligation and special assessment bond principal, interest and related costs. The fund number begins with a "2".

Capital Project Funds are used to account for the acquisition or construction of major capital facilities with the exception of those facilities financed by proprietary or enterprise funds. The fund number begins with a "3".

Enterprise Funds are used to account for City operations, which are financed and operated in a manner similar to private business. The fund number begins with a "4".

Internal Service Funds are used to account for the financing of goods or services provided to City departments or other governments on a cost-reimbursement basis. The fund number begins with a "5".

Trust Funds are used to account for assets held by the government in a trustee capacity.

Agency Funds are used to account for assets held by the government as an agency for individuals, private organizations, other governments or other funds. The fund number for these funds begins with a "6". Agency funds are not budgeted during the City's biennial budget process.

Each fund page includes the name, number, type and description of the fund, the major sources and uses of funds, reserve policies, and other noteworthy information.

The core staffing component allows balancing staff levels with cyclical needs, thus mitigating effects of downturns.</p>
Other Notes:	The contributions from the General Fund are equal to the salaries/benefits, m&o and capital costs for programs that have been designated as general-funded activities. ECITYGOV ALLIANCE FUND - 6370

Upon termination, all property acquired shall be disposed of as follows: (1) property contributed without charge by any member shall revert to the contributor; (2) all property purchased after the effective date of the interlocal agreement shall be distributed to the Principals based upon each Principal's proportional ownership interest at the time of the sale of the property.

EQUIPMENT RENTAL FUND – 5210

Fund Type:	Internal Service
Fund Description:	The Equipment Rental Fund (ERF) provides repair and maintenance services through the Fleet Maintenance Shop and the Electronic Communication Services Shop. In addition the fund provides services for city-wide fueling and for asset management as part of replacement reserve funding of designated equipment.
Year Created:	In 1964, the Mechanical Equipment Rental Fund (5210) was created. In 1973, the Electronic Equipment Rental Fund (1390) was created. Beginning in 1997, the funds were reported under the title "Equipment Rental Fund" in the City's biennial budget document as part of the City's Internal Service Funds
Major Revenue Sources:	The Fund is self-supporting through rates charged to user departments. Rates are based on the full cost of operations and maintenance, including the recovery of related depreciation expense. Service charges are for repair and maintenance of equipment; sales of gasoline and diesel fuel; motor pool fees; and replacement reserve charges for equipment.
Major Expenditures:	Shop labor, parts, purchase of new assets, fuel, and contracted maintenance from outside vendors.
Fund Custodian:	Utilities and Finance
Reserve Policy:	<p>Initial fund policies were developed and implemented in 1982 and revised in 2002. Replacement reserves methodology utilizes individual assets to accumulate reserves up to the original purchase price, but reserves as a whole are managed on a fund basis rather than asset by asset. Rates are set to recover the original cost of the asset over its useful life. If available funds exceed the cost of the new asset, they are credited to a single account per fund along with receipts from the sale of replaced assets and interest earned on the total reserve balance. The addition of the salvage values and interest earnings to the reserve fund is designed to provide for ordinary inflationary increases.</p> <p>Replacement reserves are recalculated every two years during the biennial budget process. Deficits are funded through replacement rates over the following two years. Reserve balances are analyzed over a 20-year cycle to ensure adequate reserve funding for future replacement and emergencies, with excesses refunded at the direction of the City Manager.</p> <p>Operations reserves are reviewed biennially to determine whether or not the reserve levels are appropriate. Reserves in excess of 5% of the annual operating expenditures are to be refunded for the benefit of the contributing fund/department. Deficit operating reserves will be replaced by increasing the maintenance rates.</p>
Other Notes:	In the early 1970s, the State of Washington enacted laws that mandated cities and counties establish replacement funds for construction equipment. The City of Bellevue expanded on this mandate to provide replacement funding for electronic and related technical equipment critical to effective City operations. Equipment included in this Fund are radios, traffic signals, medical equipment, land survey instruments, and radar equipment.

Rates charged to user departments are based on the full cost of maintaining and operating these facilities, excluding future replacement. The Fund combines planning, maintenance, and Capital Investment Program (CIP) projects along with operating budgets to provide for full operational cost.
Year Created:	1999
Major Revenue Sources:	Charges to departments and private tenant rents.
Major Expenditures:	Utilities (electric, gas, water); major maintenance (parking lots, exterior painting and elevator repairs); replacements (roofs, heating and ventilation systems); building and code improvements (seismic mitigation and ADA improvements); routine maintenance (electrical and heating systems, security, and emergency generators); custodial services (carpet cleaning, waste disposal, restroom cleaning); operating supplies; and contracted services. These costs include projects that maintain the existing infrastructure to preserve the City's capital facility investment, improve asset utilization, and support the delivery of City services and programs and are now included in the Facility Services Fund rather than the Capital Investment Program.
Fund Custodian:	Civic Services
Rates & Reserve Policy:	<p>Rates shall be based on a 10-year major maintenance plan, long-term system replacement plan, and operating expenses for utilities, custodial, contracted services, routine maintenance and repairs. The rates shall be set to provide sufficient funds to meet all operating and capital costs on a pay-as-you-go basis, as well as to provide reserves for potential unanticipated plant failures/emergencies. This reserve amount shall be set at the estimated costs of a single major component (e.g., HVAC).</p> <p>During each biennial budget process, a 10-year cash flow model shall be used to determine appropriate reserve amounts and any necessary rate adjustments. Reserves in excess of the amount needed for the upcoming biennium shall be returned to the contributing funds, unless specific uses within the Facilities Services Fund are identified and approved as a part of the subsequent budget.</p> <p>Reserves are not being collected to provide for new or replacement facilities nor for major catastrophic events.
